

Karlstein am Main, 7th August 2018

Battery Experts Forum moves to Frankfurt am Main 10th to 12th April 2019 – Messe Frankfurt

The **16th Battery Experts Forum** celebrates its premiere in Frankfurt in **2019**. Once again, international experts from all over the battery industry meet to share the latest product innovations and technologies.

To meet the great demand, the Battery Experts Forum 2019 moves to the financial metropolis of Frankfurt am Main. On six levels and over 7000m², the industry highlight will be even bigger next year. With the new location, the Battery Experts Forum expands the presentation and exhibition area at Messe Frankfurt to offer its visitors an even more varied program.

Presentations by top specialists in the lithium-ion battery industry

Over the three days of the event over 100 leading users, developers, politicians and researchers from international companies and institutes will speak about the latest trends in the battery industry:

- Electric Mobility
- Energy Storage
- New Materials/Next Generation
- Cells
- World Market
- Abuse Tests and Safety
- Life-time
- Standards and Certifications
- Battery Production

Battery training – Know how from the first league

On the first day of the Battery Experts Forum, several battery trainings will be offered, providing attendees with the key fundamentals of lithium-ion battery technology, battery management systems, hazardous materials and the latest standards and laws.

Trade exhibition with well-known companies

At the Battery Experts Forum, renowned international companies from the battery industry will be represented with exhibition stands in the Forum Messe Frankfurt. Participants have the opportunity to get to know the latest product developments, to exchange ideas with experts and to make new business contacts. New in 2019 is the trade fair ticket, with which interested parties have the opportunity to visit the exhibition area.

More information and registration forms for participants and exhibitors are online available at www.battery-experts-forum.com.
